Table Of Contents

Test Suite: With Selenium

Test Suite: install

Test Case: Install TL with MySQL

Test Suite: For Features

Test Case: Create Test Project

Test Case: Change admin's password

Test Case: Create new user

Test Case: Create test suite

Test Case: Create test plan

Test Case: Create test build

Test Case: Create requirement

Test Case: Create requirement document

Test Case: Create test case from requirement

Test Case: Create keyword

Test Case: Assign keyword to test case

Test Case: Add test case to test plan

Test Case: Assign testcase to tester

Test Case: Execute test case

Test Case: Delete keyword

1 Test Suite With Selenium

Details

This suite is for Selenium test.

test runner is here

1.1 Test Suite install

Details

Installation test via Selenium.

TODO

support PostgreSQL, MS-SQL

Test Case 341: Install TL with MySQL
<p><u>Summary:</u></p> <p>This is a installation test.</p> <p>REQUIRE</p> <p>Your testlink directory must be writable.</p> <p>e.g. testlink, gui/template_c, upload and logs directories.</p>
<p><u>Steps:</u></p> <p>See install-mysql.html.</p>
<p><u>Expected Results:</u></p> <p>Selenium test is success.</p>
<p>Author salem</p>

1.2 Test Suite For Features

Details

Test Case 344: Create Test Project
<u>Summary:</u> This case creates your first test project after installation process.
<u>Steps:</u> See createFirstProject.html
<u>Expected Results:</u> Selenium test is success.
Author salem

Test Case 346: Change admin's password
<u>Summary:</u> It's going to change admin's password.
<u>Steps:</u> See change-admin-password.html
<u>Expected Results:</u> Selenium test is success.
Author salem

Test Case 348: Create new user
<u>Summary:</u> It's going to create new user.
<u>Steps:</u> See create-new-user.html
<u>Expected Results:</u> Selenium test is success.
Author salem

Test Case 358: Create test suite
<u>Summary:</u> It's going to create testsuite.
<u>Steps:</u> See create-testsuite.html
<u>Expected Results:</u>

Selenium test is success.
Author salem

Test Case 360: Create test plan
<u>Summary:</u>
It's going to create test plan.
<u>Steps:</u>
See create-testplan.html
<u>Expected Results:</u>
Selenium test is success.
Author salem

Test Case 362: Create test build
<u>Summary:</u>
It's going to create test build
<u>Steps:</u>
See create-build.html
<u>Expected Results:</u>
Selenium test is success.
Author salem

Test Case 364: Create requirement
<u>Summary:</u>
It's going to create requirement.
<u>Steps:</u>
See create-requirement.html
<u>Expected Results:</u>
Selenium test is success.
Author salem

Test Case 366: Create requirement document
<u>Summary:</u>
It's going to create requirement document.
<u>Steps:</u>
See create-requirement-doc.html
<u>Expected Results:</u>

Selenium test is success.
Author salem

Test Case 368: Create test case from requirement
<u>Summary:</u>
It's going to create test case from requirement.
<u>Steps:</u>
See create-testcase-from-requirement.html
<u>Expected Results:</u>
Selenium test is success.
Author salem

Test Case 370: Create keyword
<u>Summary:</u>
It's going to create keyword.
<u>Steps:</u>
See create-keyword.html
<u>Expected Results:</u>
Selenium test is success.
Author salem

Test Case 372: Assign keyword to test case
<u>Summary:</u>
It's going to assign keyword to test case.
<u>Steps:</u>
See assign-keyword-to-testcase.html
<u>Expected Results:</u>
Selenium test is success.
Author salem

Test Case 374: Add test case to test plan
<u>Summary:</u>
It's going to add test case to test plan.
<u>Steps:</u>
See add-testcase-to-testplan.html
<u>Expected Results:</u>

Selenium test is success.
Author salem

Test Case 378: Assign testcase to tester
<u>Summary:</u> It's going to assign testcase to tester
<u>Steps:</u> See assign-testcase-to-tester.html
<u>Expected Results:</u> Selenium test is success.
Author salem

Test Case 380: Execute test case
<u>Summary:</u> It's going to execute test case.
<u>Steps:</u> See execute-testcase.html
<u>Expected Results:</u> Selenium test is success.
Author salem

Test Case 382: Delete keyword
<u>Summary:</u> It's going to delete keyword. It hasn't worked via Selenium yet.
<u>Steps:</u> See delete-keyword.html
<u>Expected Results:</u> Selenium test is success.
Author salem
